

Lowell Metropolitan Police Commission

Chief's Report

September 26th, 2024

Vehicle Update: We were waiting on the last Durango to arrive at the dealership when we learned they had sold it. After being unable to locate a replacement for the same price that was allocated, an administrative vehicle, a 2024 Ford Maverick, was purchased. It saved the town over \$10,000 from what a Durango Pursuit would cost.

Labor Day Parade: The parade passed with no major incidents. The additional police presence to ensure the public's safety was well received.

Range Update: The town has approved a feasibility study for a new range and training center that would potentially be built alongside the new town maintenance facility. We are meeting with the firm next week to begin the process.

Public Safety Open House: The event will take place on October 13th from 1p to 4p. We will participate along with the Lowell Fire Department and TriCreek EMS with a car seat installation station, K9 meet and greet, bike safety station, NWR Swat demonstration, firearm safety table, SRO meet and greet, and a police station tour.
